EDUCATION

Veermata Jijabai Technological Institute (VJTI), Mumbai <i>B.Tech in Computer Science and Engineering</i>	2022 - 2026
Guru Nanak Khalsa College, Mumbai <i>Higher Secondary Certificate (HSC) - Science</i> Percentage: 75%	2020-2022
Apostolic Carmel High School, Mumbai <i>Secondary School Certificate (SSC)</i> Percentage: 84%	2020

TECHNICAL SKILLS

Languages: Python , HTML, SQL, CSS, JavaScript.

Development Tools: Git , GitHub,SQLite.

Frameworks: ReactJS , NodeJS , Tailwind CSS.

ACADEMIC PROJECTS

- **Credit Risk Application | Python, Jupyter,Streamlit,** - October 2025
 - Interactive Credit Risk Prediction application built using Python and Streamlit to evaluate loan applicant viability.
 - Utilized Joblib to seamlessly load and integrate pre-trained, separate label encoders (for Sex, Housing, Checking, and Saving accounts), transforming categorical variables into numeric inputs for the model.
 - Enhanced overall user experience by leveraging Streamlit's responsive design elements and clear visual messaging for instant prediction outcomes.
- **AI- Airport Revenue Optimization Platform | Python,Streamlit,PowerBi** -May 2025
 - Developed a Streamlit-based AI dashboard for Delhi and Jaipur airports.
 - Integrated a recommendation engine (Surprise), dynamic pricing (Q-learning), and sentiment analysis (TextBlob) to improve revenue per passenger and NPS scores.
- **Employee Management System (EMS) Web Application**
 - Developed a full-stack Employee Management System using Node.js (Express), SQLite, and vanilla JavaScript.
 - The system supports secure authentication (with admin and employee roles), employee onboarding, department management, attendance, leave, payroll, and announcements.
 - Implemented session-based access control, dynamic dashboards, and CRUD operations for HR processes. Designed responsive UI with HTML/CSS and managed state with local storage for seamless user experience.

ACHIEVEMENTS
